

FISHING EQUIPMENT

Import Protocols

- NO USED lures ie they must be new and preferable in their original packaging
- ALL lures must comprise of processed material, in particular any furs/furthers used for fly fishing
- NETS must be new
- REELS and LINE equipment must be thoroughly cleaned with vircon / hypocalcium chlorite (bleach) or similar and thoroughly dried
- ANY OTHER fishing accessories must be thoroughly cleaned and dried as above
- ALL equipment must be completely free of any debris / organic matter
- MUST be declared on arrival to the Falkland Islands
- SUBJECT to inspection on arrival

Any equipment found **NOT** to comply with the above will be:

- Temporarily confiscated by the Customs Officer on duty
- Taken to the Department of Agriculture
- Cleaned with an appropriate agent
- Instructions given to the importer as to where and when they may retrieve their equipment

Any costs incurred will be the responsibility of the importer

Whilst every effort will be made to ensure the equipment is carefully handled the Department of Agriculture cannot be responsible should any damages incurred
