

DRONES

BE SAFE BE AWARE BE LEGAL

Always make sure that you can see your drone

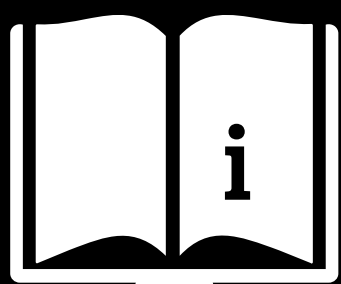

This means you can see and **avoid** things while flying

Do not fly your drone above 400 feet

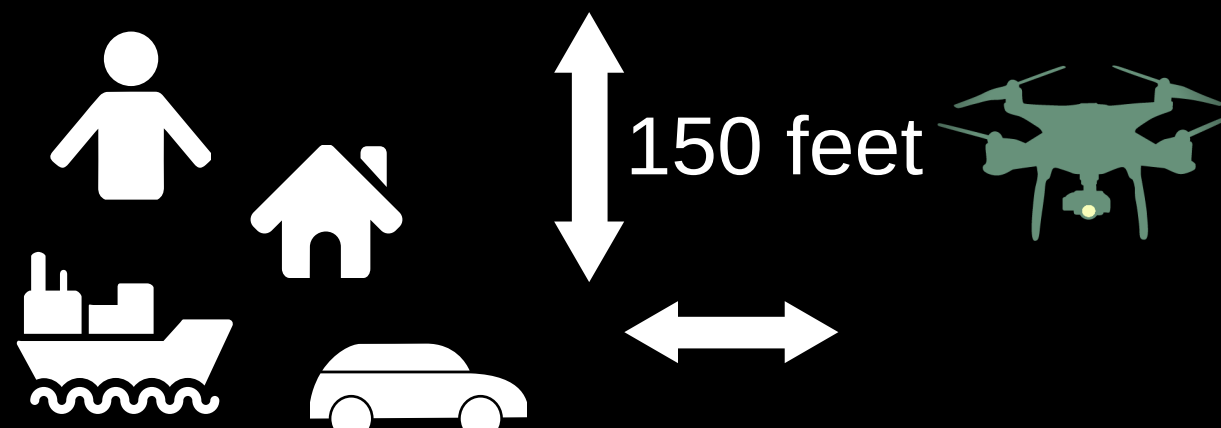

This reduces the likelihood of conflict with aircraft

Every time you fly your drone you must follow the manufacturers instructions

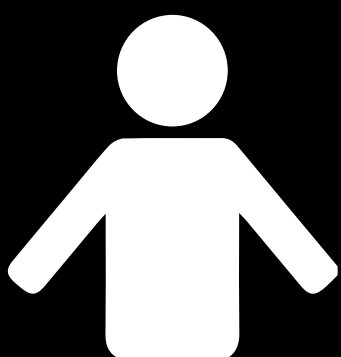

Keep your drone and the people around you **safe**

Keep the correct distance from people and property

150 ft (46 m) from people, properties, vehicles and vessels

You are responsible for each flight

Legal responsibility lies with you
Failure to fly safely could result in a fine

Stay well away from aircraft, airports and airstrips

It is an **offence** to allow your drone to endanger any aircraft

For more information on drone regulations please contact the Civil Aviation Office
civilaviation@sec.gov.fk (+500) 27300 www.fig.gov.fk/aviation
For environmental regulations contact:- environmental.officer@sec.gov.fk
