

If you are feeling unwell and have:

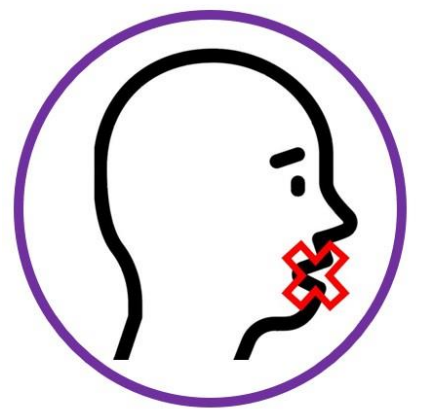

High temperature

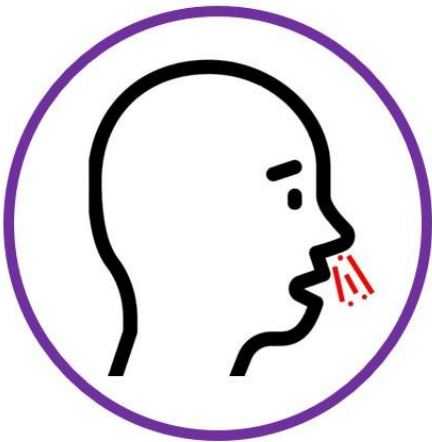

A new and
persistent cough

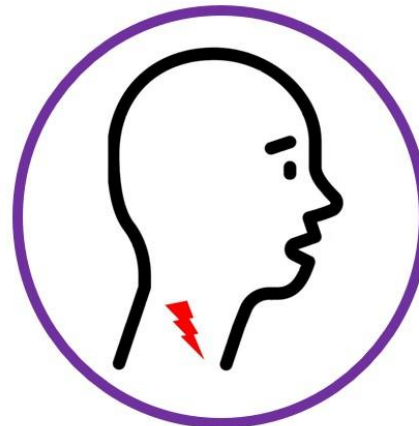

Loss of smell or taste

Other symptoms may include:

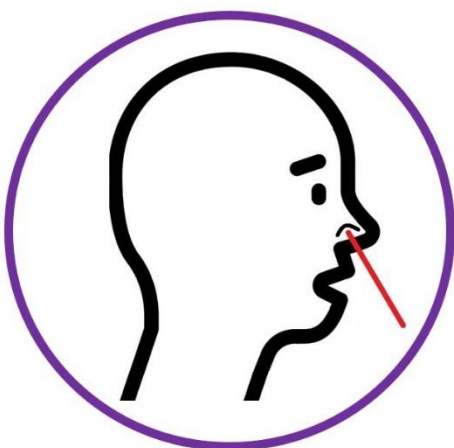

Sneezing or a
runny nose

Sore throat or
difficulty breathing

What to do if you have symptoms

If you have symptoms you will need to
take a Lateral Flow Device (LFD) test

You will also need to
self-isolate

Call 28000 if you test
positive or need advice
