

If you are feeling unwell and have

A new and persistent cough

A fever

Other symptoms may include

Runny nose

Sore throat

Difficulty breathing

Loss of smell

Loss of taste

If you have symptoms you need to call KEMH for advice on 28000 and self isolate. If you have a new and continuous cough or a fever, your **entire** house must self isolate.

Wash your hands after coughing or sneezing

Use a tissue and then throw it in the bin
