

FALKLAND ISLANDS MARITIME AUTHORITY

NOTICE TO MARINERS

N^o 06/2022

King George Bay (West Falklands)

Berkeley Sound (East Falklands)

Acoustic Wildlife Monitoring Devices

Acoustic wildlife monitoring devices have been established in Berkeley Sound in the following position:

51°34.74'S 057°48.04'W

and in King George Bay in the following position:

51°36.00'S 060°23.97'W

The device is sub-surface floating 3m above the Seabed and unmarked. It is not expected to cause a hazard to navigation.

Vessels are requested to give the devices a wide berth and not to approach or anchor within 500m of the noted positions.

Steuart Barlow
Deputy Harbour Master,
Falkland Islands Government.

Issued on 16/12/2022
