

# FALKLAND ISLANDS GOVERNMENT

## NOTICE TO MARINERS

N<sup>o</sup> 04/2021

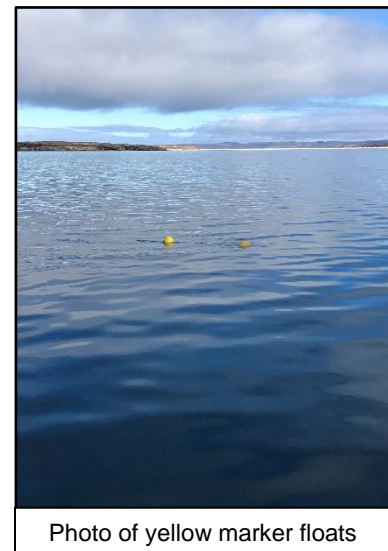

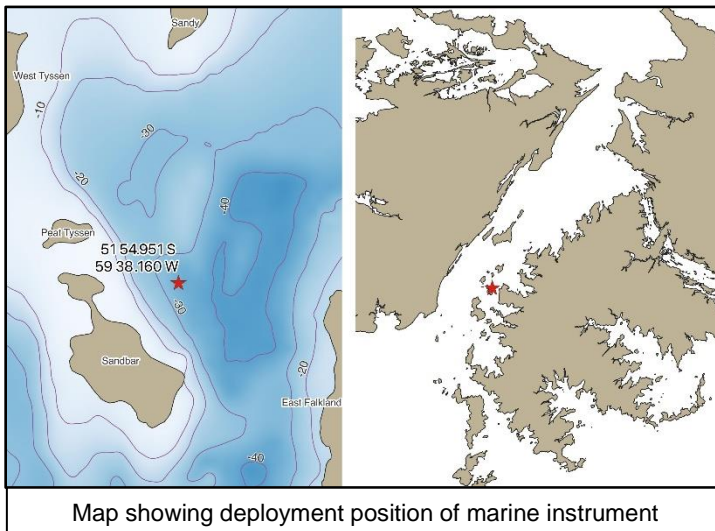

### Falkland Sound

Tyssen Islands and Whitecliffs area

### Marine Research Instrument

A marine research instrument has been deployed in the Falkland Sound in the vicinity of the following position: 51° 54' 57.1" S, 059° 38' 09.6" W

The instrument is lying on the seabed at a depth of 35m and is 0.5m in height. It is marked by two yellow floats. The equipment will remain in place for approximately 5 months, until January 2022.

This Notice shall remain in force until further notice.
