

ACTIVE BODY HEALTHY MIND

Did you know?

Keeping your body active also helps your mental health. Finding activities that you enjoy not only benefits your physical health and fitness, but also your overall well-being.

Aim for

75

MINUTES PER WEEK OF
VIGOROUS INTENSITY

(breathing fast, difficulty talking)

OR

150

MINUTES PER WEEK OF
MODERATE INTENSITY

(increased breathing, able to talk)

OR

A COMBINATION OF BOTH

Remember!

Any physical activity is better than none. Start small and build up gradually. We all have to start somewhere!
