EMP-01 BIK - Notes on Employees working in agriculture or horticultural sector

Please note that employees working in agriculture or horticulture are not liable on a Benefit In Kind if you provide them with any living accommodation and/or board, including heating and lighting of the accommodation, for their use.

For the purposes of identifying who may fall under this exemption please see the relevant definitions, taken from the Taxes Ordinance.

“agriculture” means arable farming, dairy farming and livestock breeding and keeping, the use of land as grazing land and meadow land, and the use of land for woodlands where that use is ancillary to the farming of land for other agricultural purposes; and

“horticulture” means the production of horticultural produce for sale, and horticultural produce means fruit, flowers, vegetables and herbs, trees and shrubs, other than trees grown for the purpose of afforestation, and seeds for the reproduction of any such produce.

There are two further exceptions from the charge to a benefit if you have provided your employee with accommodation. These are;

- 1) Where the Commissioner of Taxation is satisfied that it is necessary for your employee to live in the accommodation in order to carry out the duties of that employment,
and
- 2) If the accommodation is not situated onshore in the Falkland Islands.

You, as the Employer, must write to the Commissioner of Taxation to seek approval for each individual employee to be exempted from any charge on accommodation being provided to that employee. You can use the BIK ACC EXCEPT form to apply for approval.

BIK ACC EXCEPT - Accommodation Exception Form

If you have an employee who you provide with free accommodation and/or board and you wish to apply for exception, please complete this form.
